A special excursion train of five coaches, two smoking cars and one combination smoking and baggage car, will be run from Scranton to Allentown over the Central Railroad of New Jersey on Monday, March 17, to accommodate all the singers and their friends who will attend the Lehigh valley elatedford at Allentown on St. Patrick's day.

The train will leave the North Scranton station at the Ontario and Western railroad at 6 a. m., reaching the Allentown terminal at 6.15 o'clock. ## MISS VIRGINIA GRANES

Tells How Hospital Physicians Use and Rely upon Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Twelve years continuous service at the sick bed in some of our prominent hospitals, as well as at private homes, has given me varied experiences with the diseases of women. I have nursed some

MISS VIRGINIA GRANES, President of Nurses' Association, Watertown, N.Y., most distressing cases of inflammation and ulceration of the ovaries and womb. I have known that doctors used Lydia E. Pinkham's Vegetable Compound when everything else failed with their patients. I have advised my patients and friends to use it and have to hear of its first failure to cure.

"Four years ago I had falling of the womb from straining in lifting a heavy box. I was in bed for three weeks. Now a pin-setter is somewhat of an artist and a real, full-fledged artist cannot be expected to work without assistance, so Tuesday night about 7 o'clock the pin-setters demanded of the manager of the alleys that an assistant be employed to hand them the pins. At first the management could not see the necessity for an assistant, but when he received the ultimatum of the pin-setters, "No assistant, no pins," he decided that they would concede the assistant, and another boy was put to work.

An hour later the pin-setters again approached the management. Their assistant was not getting within fifteen cents of the pay per night he should receive, they said, and unless it was made right they would refuse to work. It was not made right, and they struck.

Yesterday new pin-setters were employed, and last night affairs had resumed their wonted condition at the alleys.

Not the Guest Expected.  
"An amusing incident of college life has just been related to me," remarked Seth Low at a little informal luncheon recently. "A western student, young women were having much difficulty in maintaining discipline. It finally came to the ears of the faculty that the students were preparing to give a nocturnal reception to a number of young fellows from a neighboring military school. The visitors were to come after midnight and be lodged in the dormitories in a basket dropped from a window at the end of a row."

"One professor at the academy agreed to take the matter into his own hands and prepared a surprise for the transgressors. After all the guests had made the trip in safety he stole from the place where he had been in hiding and slipped into the basket. The signal to let them in was given and the professor's upward journey began. He was so much more than those who had been before that reinforcements were called for. At last the girls brought the handle of the basket on a level with the sill. The light from the window shone upon the bald head of the intruder and he was recognized. The professor heard one frantic scream of terror in vision from a dozen charming pupils, and then—"Mr. Low paused.

"What happened?" demanded the listeners eagerly.

"They let go the rope!"—New York Times.

MRS. SWISHER TRIED TO END HER LIFE.

She Threw Herself Into a Bathtub Full of Water But Was Found by Her Daughter in Time to Save Her Life—George Schrader Arraigned Before Alderman Lentes—Michael Zsappka Acted in a Very Unbrotherly Manner and Was Sent to the County Jail in Consequence.

Mrs. Swisher, an old resident of this city, who is nearly seventy years of age, created a stir in the upper portion of the Twentieth ward yesterday morning, by stepping into a bathtub, with the evident intention to end her life.

The old lady lives with her daughter, a Mrs. Delmer, at 2318 Paterson avenue, which is near the Minooka city line, and has been in a despondent mood for some time.

Early in the morning she visited the bath room, and was not missed for some time. Her daughter made a search, and on opening the bath room door, found the old lady speechless, from the effects of the cold water, but alive. Medical aid was at once summoned, and an examination showed that the would-be suicide was in a serious condition, having become thoroughly chilled and benumbed with cold.

It was evident the old lady had changed her mind after entering the cold bath, and it is presumed that the chills of the water prevented her from carrying out her purpose. For a time, her condition, after being found, was precarious, but hopes of her recovery are now entertained.

Abuses His Wife.  
George Schrader, of 1123 Stafford avenue, was given a hearing before Alderman Lentes yesterday on charges of assault and battery, and threats. The complaint was entered by his wife, who alleged that when tipsy Schrader abuses himself by abusing her and that his dislike for her and the world in general is because he is unable to keep a job for any length of time owing to his disposition.

He was ordered to furnish bail in the sum of \$600 for his appearance at court.

A Peculiar Case.  
George Zsappka, of 324 South Washington avenue, had warrants sworn out before Alderman Lentes yesterday, against his brother Michael, for defrauding a board bill, and also for unbrotherly conduct towards Mrs. Zsappka.

It appears that Michael left his brother's home without settling for his keep, and after he had gone, George also learned of an intimacy existing between his wife and brother. Alderman Lentes after hearing all the facts, decided to hold the defendant in bail for court, but about this time, the prosecutor relented, forgave his brother, and paid the costs.

In a short time however, he returned and stated that shortly after arriving home Michael started in to "clean house," and made dire threats, so that George was afraid he would do him bodily harm. The alderman made out a commitment, and the pugnacious brother was landed in the Alder street station house. He will be given a hearing this morning.

Laid at Rest.  
James Gavan, the young son of Mr. and Mrs. William Gavan, was laid at rest in the Dunmore cemetery yesterday afternoon. The home of the bereaved parents is at 1407 Stone avenue, was thronged with sympathetic friends, and a long line of carriages followed the remains to their last resting place.

The pall-bearers were Thomas McIntyre, William Boland, Thomas Quinn and James Boland.

NUBS OF NEWS.  
There is an epidemic of sickness among horses on this side, at the present time, and the veterinary surgeons are being kept busy. The Scheuer Bros., bakers, lost a valuable animal a few days ago, while another is in such a condition as to be practically worthless.

The American Pipe and Drum Corps will conduct their fifth annual grand ball in Athletic hall on March 17, St. Patrick's night.

The funeral of the late Patrick Mangin will take place at 9 a. m. this morning from the family residence, 1211 Prospect avenue.

A special meeting of the St. Aloysius society will be held in Pharmacy hall this evening when all members are urged to attend.

Counted Out.  
Few people can understand the feelings of the pugilist as he is being counted out. He hears the seconds ticked off. He struggles to rise, but struggles in vain. He has lost the fight.

There are some who are making a losing fight for life that can appreciate this; those whose lungs are diseased. With every tick of the watch they know that they are being counted out.

The great question is how can a quick rally be made to continue the fight against disease? Many who have asked that question have found a satisfactory answer in the use of Dr. Pierce's Golden Medical Discovery. It cures bronchitis, obstinate, deep-seated coughs, hemorrhage, night-sweats, emaciation, and other conditions which if neglected or unsatisfactorily treated may find a fatal termination in consumption.

"When I commenced taking Dr. Pierce's Golden Medical Discovery," writes Mr. John T. Reed, of Jefferson, Jefferson Co., Ark., "I was very weak with a cough and would at times spit up blood. I was unable to do any work at all. I took it for a week and my head was clear. The first bottle I took did me so much good that I had faith in it and continued until I had taken twelve bottles. Now I do not look like nor feel like the same man as I was a year ago. Friends were astonished and said they did not think I could live. I can thankfully say that I am entirely cured of a disease from which had I not been for your wonderful 'Discovery' I would have died."

There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

AMERICANS IN RUSSIA.  
Syndicate Secures \$200,000,000 Russian Trolley Concession.  
From the London Express.

Electric tram cars of American build are about to invade the land of the czar.

To a syndicate composed entirely of Americans the Russian government has just made one of the most important concessions ever granted any foreign corporation. It has for its object the electrification of the tram lines in St. Petersburg, Moscow and several smaller cities in Russia.

Murray A. Verner, of Pittsburgh, United States of America, has been conducting negotiations with the Russian government on behalf of this syndicate, and the papers were signed by M. de Witte, Russian minister of finance, a few days ago.

The value of the concession is over \$20,000,000, and the syndicate agreed to rebuild 315 miles of railway, in addition to constructing new lines in territory designated by the government.

Mr. Verner has been negotiating with the Russian government for many months. When a preliminary tender was made by his syndicate over a year ago to take over the tram lines in St. Petersburg, another American syndicate, consisting principally of New York capitalists, made an unsuccessful effort to secure the rights.

The Verner syndicate is composed of men who have been associated for many years with the management of tram lines in the United States. Mr. Verner and H. Sellers McKee, one of the largest stockholders, own valuable tram lines in Pittsburgh, Indianapolis, and several western cities.

The work of electrifying the Russian tram lines will begin early in the spring, those in St. Petersburg being first transformed. The overhead trolley system will be adopted, the company having found it more successful in the operation of its American lines than the so-called third-rail system.

The majority of the equipment will probably be manufactured by the Westinghouse Electric company in Pittsburgh, although a portion of the contract may be placed with the British Westinghouse company if their new plant at Trafford Park, near Manchester, is finished in time.

When the new trains are in operation in St. Petersburg that city will, for the first time, enjoy the advantages of rapid transit in winter. Heretofore, the slow-
